

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

VOLUME XXVI.

WOODS HOLE, MASS.
JANUARY TO JUNE 1914

PRESS OF
THE NEW ERA PRINTING COMPANY
LANCASTER PA.

CONTENTS OF VOLUME XXVI

NO. 1. JANUARY, 1914.

KANDA, SAKYO. <i>On the Geotropism of Paramecium and Spirostomum</i>	1
EWING, H. E. <i>Pure Line Inheritance and Parthenogenesis</i>	25
CHILD, C. M. <i>The Axial Gradient in Ciliate Infusoria</i>	36

NO. 2. FEBRUARY, 1914.

CURTIS, MAYNIE R. <i>Studies on the Physiology of Reproduction in the Domestic Fowl</i>	55
GLASER, OTTO. <i>The Change in Volume of Arbacia and Asterias Eggs at Fertilization</i>	84
OKKELBERG, PETER. <i>Volumetric Changes in the Egg of the Brook Lamprey, Entosphenus (Lampetra) wilderi (Gage), after Fertilization</i>	92

NO. 3. MARCH, 1914.

GLASGOW, HUGH. <i>The Gastric Cæca and the Cæcal Bacteria of the Heteroptera</i>	101
BANTA, ARTHUR M. <i>Sex Recognition and the Mating Behavior of the Wood Frog, Rana sylvatica</i>	171
WHITING, PHINEAS W. <i>Observations on Blow Flies; Duration of the Prepupal Stage and Color Determination</i>	184

NO. 4. APRIL, 1914.

MORGAN, T. H. <i>No Crossing over in the Male of Drosophila of Genes in the Second and Third Pairs of Chromosomes</i>	195
BRIDGES, C. B., AND STURTEVANT, A. H. <i>A New Gene in the Second Chromosome of Drosophila and some Considerations on Differential Viability</i>	305
MORGAN, T. H., AND TICE, S. C. <i>The Influence of the Environment on the Size of Expected Classes</i>	213
TICE, SABRA COLBY. <i>A New Sex-linked Character in Drosophila</i>	221
MORGAN, T. H. <i>Another Case of Multiple Allelomorphs in Drosophila</i>	231

No. 5. MAY, 1914.

SMITH, BERTRAM G. <i>An Experimental Study of Concrecence in the Embryo of Cryptobranchus allegheniensis</i>	245
ANDREWS, E. A. <i>The Bottle-Animalcule, Folliculina; Ecological Notes</i>	262
CHILD, C. M. <i>Asexual Breeding and Prevention of Senescence in Planaria velata</i>	286
SHELFORD, VICTOR E. <i>An Experimental Study of the Behavior Agreement Among the Animals of an Animal Community</i> . .	294

No. 6. JUNE, 1914.

<i>The Marine Biological Laboratory. Sixteenth Report</i>	317
BACHMANN, FRED A. M. <i>The Migration of the Germ Cells in Amiurus nebulosus</i>	351
GLASER, OTTO. <i>A Qualitative Analysis of the Egg-Secretions and Extracts of Arbacia and Asterias</i>	367
GLASER, OTTO. <i>On Auto-parthenogenesis in Arbacia and Asterias</i>	387
